

Prova classe seconda

Let's recycle!

1. In pairs / group, discuss a recycling project you can do at school. You can search online and use dictionaries. Put all your ideas in a mind map
2. You are going to present your recycling project. Use the chart below and include the following things
 - a. say what you want to make in your introduction;
 - b. add information to each section;
 - c. in your conclusion say why you think it's a good idea.
3. Divide the presentation between you and your partner / group.
4. Present your recycling project to your class.

Introduction	Our presentation is about recycling into/ turning a into a / making a from
We need and	We need an old / a big / lots of / some / a We also need some / a
First,	First, we cut / find / take
Then,	Then we stick / sew
At the end,	We can give it to / sell it for / use it to
Conclusion	It's a good idea because
